**THE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT TO HOST A HUD INFORMATION SHARING SESSION**

*Topics to include Section 3, Healthy Home, Lead-based paint Hazard Reduction (LHR), Community Development Block Grants (CDBG), as well as an overview of other HUD programs, initiatives and policies currently being implemented in Florida.*

*Tampa, FL – (July 29, 2019)*

After completing several outreach activities in our area, HUD learned of some common concerns and questions regarding HUD programs, processes and opportunities. In response, the HUD Jacksonville Office of Field Policy and Management (FPM) is currently working with our partners to expand information regarding programs that will benefit the community. Additionally, a part of HUD's job is to support the needs of stakeholders and make a positive impact in the community they serve. It is important that HUD provide the local collaborative partners and HUD customers with the tools and the resources necessary for successful communities.

Keeping in line with HUD's 2019 Strategic Plan, the office of Field Policy Management is planning to convene several comprehensive training/information sharing sessions in various cities throughout the Northeast, Northwest and Central Florida. The goal is to deliver four (4) ½ day of information sharing events in Jacksonville, Orlando, Tampa, St. Petersburg and Tallahassee. These discussion meetings can only be attended in person as there is no dial-in number available for remote participation. All questions, inquiries should be directed to [Dedra.Carey@hud.gov](mailto:Dedra.Carey@hud.gov) or [Terry.L.Brey@hud.gov](mailto:Terry.L.Brey@hud.gov)

Target Audiences: City and County Housing and Community Development Departments/agencies, Congressional/Constituent Case Workers, Housing Authority Officials and staff, Local Businesses, Section 3 Coordinators, Section 3 Participants, Health Departments and Contracting Companies and Community Partners.
